R. Bailey reviewed each of the CPRC items with Academic Council.

**8.2.1 a) Bachelor of Arts in Communication and Digital Media Studies – Major Program Modification – Addition of Simple Pathway (Canadian University of Dubai)**

Council was advised that the structure is an existing pathway (2+2 program). This was developed between the Canadian University of Dubai and the Faculty of Social Science and Humanities over many years. It is also consistent with the 2020 International Plan. In the first year, they expect 5-7 students, some of them being expats.
On a motion, that Academic Council approve the major program modification to the Bachelor of Arts in Communication and Digital Media Studies with the addition of a simple pathway with the Canadian University of Dubai.

(b) Bachelor of Arts in Forensic Psychology - Major Program Modification – Addition of Simple Pathway (Canadian University of Dubai)

In response to some concern raised on the association with the Canadian University of Dubai, N. Ammar informed Council that we have a great relationship with the university – the relationship began in 2008. She also confirmed that it is an accredited institution. Council was also assured by CPRC that due diligence has been done on the university and the quality of its programs.

On a motion, that Academic Council approve the proposed major program modification to the Bachelor of Arts in Forensic Psychology with the addition of a simple pathway with the Canadian University of Dubai.

Q. Mahmoud abstained

8.2.2 Bachelor of Science in Forensic Science – Major Program Modification - Removal of Specialization

Council was advised that there was little student interest in the program and CPRC recommends its removal. N. Ammar and K. Nugent clarified that the course will still be offered, only the specialization is being removed.

On a motion, that Academic Council approve the major program modification to the Bachelor of Science in Forensic Science program by removing the specialization set out in the attached documents.

R. Bailey explained that we have a number of similar ESL partnerships with other organizations. It was also confirmed that the Western English Language Centre is part of Western University.
9. **Registrar’s Authority to Determine Student Eligibility to Confer Degrees**

Prior to discussing the motion, B. MacIsaac agreed to amend the wording of the motion to include recommendations from the Office of Graduate Studies. Concerns were raised about the Council delegating its authority to confer degrees. B. MacIsaac and R. Bailey responded to the concerns by explaining that Council would not be delegating its decision-making authority but the administrative authority. R. Bailey elaborated by saying that it is Academic Council that sets the rules regarding conferral of degrees and the Registrar’s Office administers the rules. Several other members expressed hesitation to approve the delegation of authority and others stated that the approval seems to be ceremonial in nature. The Registrar was asked whether he would have to return to Council for approval of any irregularities in the conferral process and he confirmed that he would be required to do so.

*On a motion, that Academic Council approve the following resolution:*

WHEREAS Academic Council has the delegated authority from the Board of Governors to confer degrees under section 8.10(a)(VI) of the UOIT By-Law;

WHEREAS Academic Council has the power to delegate administrative functions in relation to the authority to confer degrees;

WHEREAS Academic Council approves the degree requirements for each program;

WHEREAS students must meet those degree requirements in order to be recommended for graduation by their Faculty;

WHEREAS the Registrar receives graduation recommendations from each Faculty, confirms student eligibility, and accepts each Faculty's recommendations to grant degrees to those students who meet the requisite criteria, which is an administrative function related to Academic Council’s authority to confer degrees;

WHEREAS the Registrar has committed to report on the conferral of degrees to Academic Council at every June meeting, highlighting any recommendations that fall outside of Academic Council requirements;

NOW THEREFORE Academic Council hereby confirms the delegated administrative authority of the Registrar to confirm student eligibility and accept Faculty graduation recommendations for those students who have fulfilled all degree requirements and authorizes the Registrar to execute and complete such documents as may be required to exercise this administrative authority.

*On a motion, that Academic Council authorize the granting of degrees to those students who have fulfilled all degree requirements at the end of the Summer term 2015 and who have been recommended for graduation by their Faculty and Office of Graduate Studies as required.*

10. **Budget Assumptions**

D. Saucier and C. Elliott presented on next year’s budget assumptions. D. Saucier used the slides to show that when the strategic plan was developed, we expected incremental growth. However, now we are seeing flat growth due to the declining numbers of high school students across the province. She explained the forecasted increase in 2018-19 due to the new building. She reviewed the significant budget assumptions, which were set out in the presentation. C. Elliott continued the presentation by discussing the forecasted escalating loss as
salaries/revenues continue to grow while revenues remain flat. We must examine how best to address the shortfall. C. Elliott reviewed the discussion questions and answered Council members’ questions regarding items set out in the budget.

It was suggested that explanatory footnotes be included in the budget to assist those who are less familiar with reading budgets. D. Saucier remarked that budget cuts are a complex puzzle and they would appreciate suggestions from Council on developing a cogent set of principles to guide the cuts.

D. Saucier reviewed the budget priorities:
   a) maintaining faculty/staff ratios but might have reallocations;
   b) increasing percent of total budget going to instruction & research; and
   c) maintaining reserves and current amounts in annual capital.

C. Elliott confirmed that each faculty/business unit will decide how cuts would be allocated. B. MacIsaac advised that he is still working on a cost display. The Ministry has mandated balanced budgets. If we did nothing for the first 3 years, by the time we got to 4-5 year mark, we would likely require an 8% cut. Council members expressed a great deal of interest in the presentation and engaged in a lengthy and robust discussion. Due to time constraints, B. MacIsaac suggested setting up another time to review the budget with those members who are interested and asked members to e-mail him with specific questions they would like addressed. The topic will be discussed again at a future meeting.

11. COU Update

M. Green suggested deferring this item to the next meeting due to time constraints.

12. Other Business

12.1 Senior Appointments Policy update

C. Foy advised Council that the document addressing the appointment of Deans, Dean of Graduate Studies and the Associate Provost has been reviewed by the Policy Office. The Policy Office has conducted benchmarking and the benchmarking is almost complete. She explained that there will be a high level policy piece with procedures underlying it. She also confirmed that the search for the Dean of Education will follow existing procedures until the new policy is implemented.

13. Colleagues’ Exchange

There was none.

The meeting was adjourned at 4:28 p.m.
