Program continues...

## The Nightingale Pledge

### Student Pledge:

*"I solemnly pledge myself in the presence of this assembly, to faithfully practice my profession of nursing. I will do all in my power to make and maintain the highest standards and practices of my profession. I will hold in confidence all personal matters committed to my keeping in the practice of my calling. I will collaborate with the ~~interprofessional~~ team as we undertake our work together, and will devote myself to the welfare of my patients, my family, my community, and all of humanity. I will endeavor to fulfill my rights and privileges as a good citizen and take my share of responsibility in promoting the health, welfare, and dignity of humanity. I will constantly endeavor to increase my knowledge and skills in nursing and to use them wisely, continuing to elevate the profession of nursing while maintaining my code of ethics. I will zealously seek to nurse those who are in need of nursing care, wherever they may be and whenever they are in need. I will be active in assisting others in safeguarding and promoting the health and happiness of human kind while respecting our planet, all life found on it, and the stewardship role nurses must play in relation to the environment. I commit to preserving and promoting human dignity in all contexts and to enacting my professional calling with integrity. I will employ leadership, advocacy, and collegial principles at all times, as I speak out for my patients, my colleagues, myself, my profession, the healthcare system, and all those in need of care and support. I will embrace my role in creating the nursing profession of the future, deeply embedded in the historic values of the profession.*

### Faculty Response:

*"As we light this candle and you take this solemn pledge, to enter into this noble and ancient profession, carry forth your values, your ethics, your standards of excellence, and your commitment to yourself and to those whom you serve, and continue to radiate your caring and love throughout all of humanity."*
